**Parks System Plan progress – J. Iacoangeli and C. Jackson, Consultants with Beckett & Raeder**

Jackson presented the results of a development land cost estimate for Bayside Park improvements. The work was awarded to Beckett and Raeder by a resolution passed at the June 4<sup>th</sup> Board meeting. The details of this work will allow the township to put out RFQ for construction of new parking facilities and other activities. Also the planning work is required to apply for DNR grants or GTRLC facilitated grants to help us with financial support to do the implementation of improvements at our Parks.

Iacoangeli said we are here today to review the recent community survey and how that input applies to our parks; what goes, what stays. With this information we can recreate how the parks will be. The Parks & Recreation Advisory was given the charge to come up with some short term projects to get things moving.

Discussion followed.

**ADJOURNED AT 7:00 pm**
